This section for City use only

Project #: _____

Permit Code: _____

Permit Fee: _____

Parcel #: _____

Receipt #: _____

Date: _____

Name: _____

Address: _____

Phone #: _____

Email: _____

Check one: Addition to existing building Swimming pool
 Detached garage Other _____

Provide a sketch of the work you intend to do that shows the location of all electrical outlets (i.e. switches, receptacles, lights, etc.)

Briefly describe the electrical work you intend to do:

What type of wiring method(s) do you intend to use (i.e. Romex, EMT, PVC, direct buried cable)?

In the left column, state the size wire you intend to use and, in the corresponding column on the right, state the size over current device you intend to use to protect that wire:

Wire Size & Type	Over current device size
_____	_____
_____	_____

I am the sole owner and occupy the single-family dwelling at the above address and hereby assume all responsibility, liability, and further bind myself and my heirs for any and all damage to property and/or person that may result by not properly installing any electrical work at this address.

NOTE: Duplexes, condos and other similar dwelling units, which are physically attached to other dwelling units, are not single-family dwellings. The City electrical code allows homeowners to do wiring in existing single-family dwellings only.

Before insulating or covering any walls containing any wiring, call the Inspection Division at (920) 448-3300 for a rough-in inspection. At that time, all grounding splices should be made up permanently. When the job is completed, call for a final inspection prior to occupancy.

Application approved by: _____ Signed: _____
