RESIDENTIAL CONTRACTOR LICENSE

Green Bay City Council, on the above date, approved an ordinance repealing the requirement for Residential Building Contractors to be licensed by the City of Green Bay. As a result, you will no longer be required to carry a Residential Building Contractor's License from the City in order to receive a building permit.

To obtain a building permit in the City of Green Bay a contractor must carry the State of Wisconsin **Dwelling Contractor Certification**, and a **Dwelling Contractor Qualifier Certification** from the Department of Commerce Safety & Building Division. Prior to issuing a local building permit on a one or two-family dwelling, the City will continue to verify that a contracting business owner possesses or employs at least one individual who holds both current:

Dwelling Contractor Qualifier Certification & Dwelling Contractor Certification

If you have any questions regarding these certifications, contact the State of Wisconsin Licensing Department at 608-261-8500.
