

Green Bay Parks & Recreation

The **goal** of GB FIT is to provide affordable health and wellness programs to the citizens of Green Bay by utilizing the great parks of our city.

GB FIT is currently comprised of two programs: **FIT Fest** and **FIT in the Parks**.

FITfest

an annual festival featuring the area's best health and wellness businesses and initiatives. FIT Fest also highlights some of the fitness and wellness programs included in the FIT in the Parks Series.

FIT in the parks

an 8-week series of fitness and wellness classes and special events taking place in Green Bay Parks. These classes are **free** to participate for any Green Bay area citizen.

GB FIT is a self-sustaining program that relies on community partners and sponsors.

There are many ways for you to get involved!
