

To: The appropriate Committee, person or group:

From: Alder Barbara Dorff, District 1

April 9th, 2020

To form a local, volunteer, non-partisan committee to assist in making sure that the election in November runs smoothly.

The purpose of said committee would be to proactively plan for the November 2020 election and have the primary goal of obtaining positive suggestions and action items to improve the process of holding future elections.

This committee should be composed of city staff, to include the city clerk and a city attorney, Alders, and interested citizens from Green Bay and should be approved by City Council.

This committee could review what happened during the in person voting in Green Bay on April 7th as well as what areas of planning for the April 7th election might be changed or improved and could include such items as:

1. The communications to the public regarding early voting and absentee ballots.
2. The mechanics and logistics of the April election and what can be done now to ensure a successful and efficient election in August and November.
3. If needed, the committee should make recommendations to the Mayor and City council and determine if recommendations or requests should be made to the Wisconsin Elections Commission in advance of the August/November 2020 election.
