

1. All records evidencing the standards, procedures, training materials, rules, guidance, or advice for making the determination as to whether or not to approve Applications; **We follow the Wisconsin Elections Commission's guidelines - <https://elections.wi.gov/publications/manuals>**
2. All records evidencing the total number of Applications that were not approved or are otherwise pending approval, including records evidencing the reasons for the rejection of Applications and any delays in the processing of Applications; **If we get incomplete registration applications we mail them back to the voter and let them know what information is needed to make the application complete.**
3. Records evidencing the types of notices or other communications issued to applicants whose voter registration applications are approved, rejected or are otherwise not processed, including, but not limited to, notices informing applicants that they must provide additional information or documents for the processing of their Applications; **Please see attached.**
4. All records evidencing the Applications that were rejected or otherwise not fully processed (including those put into a suspense or pending status) since January 1, 2018, and the reasons therefore; **We do not keep track of these.**
5. All records evidencing communications with the Wisconsin Election Commission or third parties related to Applications that were rejected or placed into a suspense or pending status; **We do not keep track of these.**
6. Records evidencing data reflecting information concerning the timeline for the processing of the Applications, including the dates when the Applications were initially received, whether and when the Applications were approved or rejected, and the final disposition of those Applications that were rejected or which were placed into a suspense or pending status. **We do not keep track of these. Also, people can register on MyVote.WI.Gov (owned by the WEC) we have no control over these.**
