Multiple Wards Tape

The tape prints out Ward x's 0 tape and then Ward y's 0 tape.

Then it prints 2 sections on the tape with the results. (Ward x & Ward y and Ward x & Ward y) with results.

In the morning:

Ward x should sign their 0 tape, and then Ward y should sign their 0 tape. Leave the tape on the machine.

In the evening:

Rip off the tape once it is done printing.

Ward x should cut off the top portion which is their 0 tape (should cut at the ****** line)

Ward y should cut off the next portion which is their 0 tape (should cut at the ****** line)

Repeat the process but this time it will be your results tapes.

Repeat again for second results tapes.

Next each Ward's workers should sign both sets of their ward's result tapes and fill in: 1)ENTER FROM THE DS200 TAPE THE TOTAL NUMBER OF BALLOTS COUNTED _____, 2) ENTER FROM THE POLL LIST THE LAST VOTER NUMBER ISSUES _____ AND 3) ENTER THE TOTAL NUMBER OF ABSENTEE BALLOTS CAST _____.

Next Ward x should take their 0 tape and a results tape and put it in the pink bubble pack.

Ward y does the same.

Each ward should now have a copy of their results tape left. Put these in the correct ward #1 White City envelope.
