

City of Green Bay

Stadium Entertainment

District Master Plan

When: Wednesday, June 15, 2016
6:00-8:00 PM

Where: Tundra Lodge Resort, Conference Center, Superior Room
865 Lombardi Avenue

Why Create a Master Plan?

This multi-block area was historically developed in industrial uses. Recently entertainment and tourist-based uses have been established. A Master Plan will help guide the City in redevelopment and new development opportunities in this area. The City will be working with consulting firm Vierbicher to facilitate a community planning process that will produce an implementation plan founded on community input.

Why Participate?

A solid and realistic master plan can only be created by the people who know it best— those who work, play or live there each day. You know what works and what doesn't. We will provide a variety of tools and exercises to gather your opinions. We then mold that into an implementable plan for the area. We would love to hear from you!

We hope you can join us!

Details

The first workshop will be held Wednesday, June 15, 2016 from 6:00-8:00 PM at the Tundra Lodge. This will be the first of three that will be held to gather public opinion. This meeting will include a presentation about the goals of the project, proposed planning process and timeline, and a question and answer session. You will also have an opportunity to speak to representatives from the City and Vierbicher.
