(REQUIRED)

NOTE: Duplexes, condos, and other similar dwelling units, which are physically attached to other dwelling units, are not single-family dwellings. The City electrical code allows homeowners to do wiring in existing single-family dwellings only.

Before insulating or covering any walls containing any wiring, call the Community and Economic Development Department for a rough-in inspection. At that time, all grounding splices should be made up permanently. When the job is completed, call for a final inspection prior to occupancy.

To schedule an inspection, submit an online Inspection Request or call (920) 448-3300 at least one business day in advance. Final inspections are required for all projects.
